REDMON-RATLIFF

ATTEMPT TO POISON CATTLE

One of the most cowardly and inhuman acts that has been attempted in this county, was made on Tuesday night, when some one placed a large quantity of paris green in the pasture of Judge Henry R. Prewitt, on the Maysville pike, where a large number of fat cattle were grazing. It is supposed this act was committed by some enemy of Judge Prewitt's trying to even their grievance by this most cowardly act. Bloodhounds were brought here from Lexington, but they could not carry the trail further than a point on the Maysville pike, where it is supposed the person or persons boarded a car. Every attempt is being made to capture the guilty party, and if caught punishment to the fullest extent of the law should be inflicted. — Mr. Sterling Advocate.

The annual reunion of the Prewitt family will be held at Olympian Springs August 25th.

Abraham McGord and Miss Ida Knox were married at the county clerk's office Monday by Rev. C. L. Wilson.

WHY HESITATE?

Why hesitate about signing a contract with the Barley Tobacco Co-operative Marketing Association? It is a selling not a holding organization. It will sell your tobacco at a profit to you. It will, by selling your tobacco at a profit, enable you to pay for your land. It will cut down the expense of selling; you can sell your tobacco for less cost in the association than over the loose leaf floors.

You will be paid for your tobacco as soon as it is sold. If the necessary 71 per cent of the growers sign in time the 1921 crop can be disposed of, without reasonable doubt, in winter order, and you will receive your money almost as quickly as if you had sold over the floors.

Isn't it just plain common sense that an organization having in its possession 75 per cent of the tobacco crop can sell that tobacco at a better price than 10,000 growers, acting as individual sellers? This Tobacco Co-operative Marketing Association is just what its name means, working together and every one shares alike.

WAS THE NEIGHBOR'S CHICKEN

Incident That Was Embarrassing, Al-
though It Also Had an Amu-
sing Side to It.

Some years ago, while living in the
suburbs, we kept a few chickens. Our
neighbors also had chickens. After
the garden season was over we let
them run, as did our neighbors. In
this way I suppose they got more or
less mixed.

One day I decided to have a chicken
for dinner, and, not liking to kill it
myself, my husband being away—I
asked our neighbor if he would kill it
for me. He kindly consented, so I
brought out the particular fowl I had
selected. He killed it, and I thanked
him and proceeded to prepare it for
dinner.

When dinner was over I went out
to feed the chickens. What was my
surprise to find among them the fowl
I thought I had just eaten. It was my
neighbor's chicken I had asked him to
kill for me.

Of course, I lost no time in making
apologies—and also insisted that they
take ours instead, and they had a
good laugh at my expense.

sent to the Board of Commerce, which
favored the move for more protection
for local merchants.

Angling Made Easy.
A California keeps a lake prop-
erly stocked with fish where anglers
may throw their line and fish to their
heart's content by paying a fee for
each fish caught. It is much cheaper
and just as much fun as taking a long
trip into the country.

Washington.—Problems of prohibi-
tion in the United States
being so acute that they are
being themselves into the sen-
sitive conferences of President Har-
dis cabinet. Two questions
to enforcement of the probi-
tion law were called up during the
conference. It was learned
that the storage and dispo-
sition of liquor in bond

usly, it was indicated, it would
be necessary for the government
to use means of disposing of
at least 100,000 gallons of per-
mit to accumulate in large quan-
ties. Not all members
believe it is a real problem, but
it is poured into gutters and sew-
ers or otherwise destroyed. They con-
sidered that this liquor has an economic
value aside from its value as a be-
verage, and that it is a ruthless waste
to destroy any product for which law-
ful uses can be found.

Government officials already are ad-
dressing themselves to the solution of
this problem. Two methods of dispo-
sition have been suggested. One is to
extract the alcohol from the liquor and
to make it available for industrial pur-
poses, the other to market it for purposes
that are legal under the prohibition
laws. The attention of the President
and cabinet members was directed, it
was learned, to a section of the Vol-
stead law that prohibits transportation
across in country of liquor in bond, no
matter for what purpose. Under a
strict interpretation of this section,
it is said, the government would not be
able to ship liquor for legal uses.

It was indicated that legislation
would be sought to remove these re-
strictions. It was learned that the Ad-
ministration would not countenance
any law dealing with enforcement,
notwithstanding the fact that there
would be no relaxation of carrying out
the intent of the prohibition act. This
question of legitimate use is being
tried in various courts, and the Ad-
ministration will await the decisions
before taking action. In case the
courts hold good of this character to
be subject to seizure, recommendations
for changes in the enforcement
law may be made by the Administration.

POSSIBLY HER LAST CHANCE

At All Events, the Object of His Affec-

For several minutes the young man
did not speak. His heart was too
full. It was enough for him to know
that this glorious creature loved him;
that she had promised to share his
fate.

With a new and delightful sense of
ownership he feasted his eyes once
more upon her beauty, and as he re-
alized that henceforth it would be his
privilege to provide for her welfare
and happiness, he could have almost
wept with joy.

His good fortune seemed incredible.
Finally he whispered tenderly:
"How did it ever happen, darling,
that such a bright, shining angel as
yourself fell in love with a dull, stu-
pid fellow like me?"

"Goodness knows," she murmured
absently; "I must have a screw loose
somewhere."

"Diplomacy, my boy," said dad, with
a patronizing smile, "means doing out

WOMEN OF MIDDLE LIFE

A Dangerous Period Through Which Every Woman Must Pass

Practical Suggestions Given by the Women Whose
Letters Follow

Afton, Tenn.—"I want
other suffering women
to know what Lydia E. Pink-
ham's Vegetable Compound
has done for me. During the
change of life I was bed-
ridden for eight months and had
two good doctors treating
me but they did me no good.
A friend advised me to take
Lydia E. Pinkham's Vegeta-
ble Compound, which I did,
and in a short time I felt
better. I had all kinds of
spells, but they all left me.
Now when I feel weak and
nervous I take the Vegetable
Compound and it always does
me good. I wish all women
would try it during the
Change of Life for I know it
will do them good. If you
think it will induce some one
to try the Vegetable Com-
pound you may publish this
letter."—Mrs. A. KELLER,
Afton, Tenn.

Mrs. Mary Lister of
Adrian, Mich., asked her
friends to send her a box of
Lydia E. Pinkham's Vegeta-
ble Compound. She says:
"It is with pleasure that I write to you thanking you for what your
wonderful medicine has done for me. I was passing through the Change
of Life and had a displacement and weakness so that I could not stand on my
feet and other annoying symptoms. A friend told me about Lydia E. Pink-
ham's Vegetable Compound and the first bottle helped me, so I got more.
It cured me and I am now doing my housework. Your medicine is certainly
a woman's friend and you may use this testimonial as you choose."—Mrs. MARY
LISTER, 608 Frank Street, Adrian, Mich.

It is said that middle age is the most trying period in a woman's life, and
owing to modern methods of living not one woman in a thousand passes through
this perfectly natural change without experiencing very annoying symptoms.
Lydia E. Pinkham's Vegetable Compound is a root and herb medicine espe-
cially adapted to act upon the feminine system. It acts in such a manner
as to build up the weakened nervous system and enable a woman to pass
this trying period with the least possible annoying symptoms.

Women everywhere should remember that most of the commoner ailments
of women are not the surgical ones—they are not caused by serious displace-
ments or growths, although the symptoms may be the same, and that is why
so many apparently serious ailments readily yield to Lydia E. Pinkham's
Vegetable Compound, as it acts as a natural restorative and often prevents
serious troubles.

to Women" will be sent to you free upon request. Write
